RE: Indiana's Do Not Call Law

The Do Not Call Law has been fantastic and makes life in our home more pleasant and safe from all telemarketers. Any attempt to weaken this law would be a grave injustice to us Hoosiers. It is bad enough, at this time in our history, to see our confidence in our government diminish. Even though your wanting to mess with this law is all about the money, don't go there. It's working - therefore, don't fix it.

Sincerely,

ET Novak
